Easterly Echoes

Mr. and Mrs. J. Taylor motored to Edmonton Tuesday. They were accompanied by Mr. and Mrs. A. Taylor. Mr. and Mrs. J. Taylor and family of Edmonton spent Easter at the home of Mr. and Mrs. W. Milton.

Gangs of men are clearing brush for the power line that is to go through this summer.
Miss Joy Enger of Vermilion spent the Easter holidays with her parents, Mr. and Mrs. M. Enger.
Mr. and Mrs. J. Oschekski and son of Edmonton spent the holidays with Mr. and Mrs. F. Wyand.
Mr. and Mrs. E. Fenton had their daughters, Miss Sylvia, Mrs. M. Stephenson of Wainwright and Mrs. James Tindall of Loughdale as visitors at their home during the holidays, also baby Lynn Alice Tindall and Mr. M. Stephenson.
Mrs. James Fenton, Mr. and Mrs. E. W. Carter and Colin of Wainwright, also Mrs. B. H. Chesters of Regina attended the Easter service at the Irma United Church on Sunday. They visited afterwards at the home of Mr. and Mrs. M. Enger.
Mr. and Mrs. Gordon Beaton and family of Kinsella visited at the home of Mr. and Mrs. W. Patterson.

Mr. Archie Cook is home again after being a patient in the Wainwright hospital.
Mr. Gordon Fenton and Valda of Edmonton are down for the spring work on the farm here.

Glen-Coa Gleanings

Mr. E. R. Erickson has returned after spending the winter at the coast.
Miss Arlene Steffensen was home for the holiday week-end.
Mrs. N. Fluevog is an Edmonton visitor this week-end.
F. C. John Erickson of Calgary was also home for the holiday week-end.
Mr. D. Linness went to Wintler, Sask. last week-end for a few days.
Mr. J. Halvorsen's two brothers from Calgary and Alaska paid him a visit recently.
On April 12 there will be church service at Sharon at 11 a.m.

Wedding Bells

McLEOD — ARCHIBALD

Two well known families were united on March 25 when Sarah Jennens, eldest daughter of Mr. and Mrs. C. Archibald of Irma, became the bride of Lorne Basil, youngest son of Mr. and Mrs. F. E. McLeod of Wainwright. The ceremony was performed in the Irma United Church, which was decorated with white flowers by Rev. J. Moorhouse of Wainwright.

The bride entering the church with her father, was lovely in a gown of nylon lace over satin with ruffled bodice and nylon lace, sleeveless bolero and matching lace gloves, to which were fastened a pair of gloves. Her floor length veil fell from a coronet of rhinestones and the white of the bridal gown was accentuated by a cascade bouquet of red roses.

The three sisters of the bride acted as attendants. Vivian as maid of honor was gown in mauve brocade with a light bodice and bolero with a tiered skirt of nylon lace. Colleen and Irene chose gowns of the same style in pastel shades of yellow and pink and all their ensembles were completed by matching floral coronets and nylon gloves. Each carried a colonial bouquet of spring flowers.

The groom was supported by Mr. Gordon Coffield, the guests were ushered to their seats by Mr. Almon Archibald, brother of the bride and Mr. W. Horn and Mr. W. Rionne. The wedding music was played by Mrs. Bert Long and during the signing of the register Mr. C. J. Ford sang "Because."

Following the ceremony a reception was held in Kiefer's Hall, tastefully decorated in pink and white, to some 300 guests.

To receive the guests the bride's mother chose a gown of navy nylon lace with deep pink carnation corsage. The groom's mother chose a two-piece suit of blue and white with a corsage of Talisman roses. Mrs. Peterson, grandmother of the bride, chose royal blue nylon lace adorned with a corsage of roses, and Mrs. Withnell, grandmother of the groom, chose a blue green costume adorned with a deep pink rose corsage.

The bridal table was laid with lace and centred by a four-tiered wedding cake flanked by vases of spring flowers. Mrs. Lillian Stuart and Mrs. J. Asch presided at the coffee and tea urns.

Mr. Donald H. Gunn very capably proposed the toast to the bride. Among other comments he mentioned the fact that through this wedding the various municipal units of the area were united. "I can't help but call to your attention that we have represented among the four parents concerned, the Wainwright M.D., the Wainwright S.D., and the Wainwright Hospital District, and I can't help but wonder if this is the beginning of the County system."

The groom fittingly responded. A toast to the parents of the bride and groom followed.

During the reception several congratulatory telegrams were read by Mr. Gordon Coffield from Dr. and Mrs. L. E. McLeod, brother and sister-in-law of the groom; Miss Josephine Saville, cousin of the bride; and Mr. Bryan Targett, a school classmate.

Later the happy couple left on a honeymoon to be spent in Eastern Canada and the States. For traveling the bride donned a suit of Coronation grey with mauve accessories and a corsage of Talisman roses.

Upon their return they will make their home on 7th Ave. West in Wainwright.

Out of two guests at the wedding included: Dr. and Mrs. C. H. Lipsey, Mr. and Mrs. J. E. Peterson, Mr. A. K. Peterson, Miss Lorraine Ramsey, Mrs. E. B. Swindlehurst, Mr. and Mrs. T. N. Withnell, Miss Betty Withnell, Mr. Tom Withnell, Mr. and Mrs. James Withnell, Mr. and Mrs. Don Mills, Mr. and Mrs. George Pugh from Edmonton; Mr. and Mrs. Bill Castle of Edmonton; Mr. and Mrs. Nelson Peterson and Nete from Leduc; and a large number of friends from Wainwright; Mr. Louis Archibald, Craik, Sask.

Careers Night In Wainwright April 22

Calling all High School students and parents of the Wainwright Division:

A Careers Night, under the sponsorship of the Wainwright Home and School Association has been planned for the night of April 22. This is a new venture for these parts, but has been successfully tried elsewhere. An effort will be made to assemble at Wainwright all grade 9 and high school students and their parents from the whole school division to hear speakers and take part in discussions relating to several of the more popular occupations.

The students are selecting, from a large number of occupations submitted to them, those in which they are most interested. Local speakers, supplemented by others from Edmonton, will be secured to speak on about ten of these occupations and thus aid the students in deciding what career they wish to follow.

Careers Nights are being promoted by the Guidance Branch of the Department of Education. The program is being held at the School Supt., Mr. Lindstedt, assisted by the school principals and the sponsor, the Wainwright Home and School.

If a student has reason to think that he or she would like to be a projectionist, an architect or an air stewardess, but wishes to get more information respecting entrance requirements, nature and conditions of work, employment opportunities, etc., here is the opportunity. If a sufficient number of other students desire the same information, a qualified speaker will be secured to talk about it and answer any questions. Eight or ten such speakers will be secured, each speaking on a different occupation.

During the course of the evening each individual will have the opportunity of listening to two speakers. Thus the needs of a large number of students can be catered to.

Parents are strongly urged to attend. The effect of their interested attitude in the future of their children is very important. The more members of a family there are present, the more information that family may take away.

The program will be offered in the Wainwright Public School where many rooms are available for the various groups. It will begin at eight o'clock. If this meeting is successful, it will probably be come an annual event; so give it a good start by attending in full force on the 22nd.

Card of Thanks

I wish to thank all the friends and neighbors who visited me on my birthday and also those who sent gifts and cards. Special thanks to Mrs. A. C. Milne who kindly acted as hostess and to Mrs. H. Riley for my birthday cake.

—James C. Wood.

Card of Thanks

We wish to say a very sincere "thank you" to all the friends and neighbors who helped so willingly with the wedding reception for Jennene and Lorne on March 25. Your generous assistance added so much to the happiness of this occasion. We will never forget your kindness.

—Charlie and Grace.

Card of Thanks

I would like to thank all the friends who so kindly remembered me during my sickness, for all the flowers, letters and cards, also the many enquiries. They were all very much appreciated. Thank you all.

Eva J. Charter.

Active Boards of Trade Great Asset To Towns and Villages

(From the Vermilion Standard)
A town or village which lacks an active Board of Trade is likely to lag far behind those centres which are fortunate in having an interested promotional body. While the board of trade handles in many cases work that is usually done by service boards and other organizations, no body handles the work that is exclusively that for which the board of trade originally came into being. This is promotion of good business relations between town and country; development of businesses and services; advancement of conveniences; publicity; and many other projects too numerous for mention. It was quite evident from the discussions at the Board of Trade Regional Conference held in Vermilion recently that trade boards in small centres act as well as service clubs and sports organizations, in fact take the place of many separate organizations which are found in larger places, but lacking in small centres.

Such were the findings in a very interesting round table discussion which followed the address by Mr. Don Marlett, entitled "What About This Chamber of Commerce Business." Mr. Marlett is the executive secretary of the Alberta Associated Chambers of Commerce and Agriculture.

Nine Centres Represented
The regional conference held here was attended by some 40 accredited delegates, representing nine chambers of commerce from this area. Chandonald was represented by R. E. Stanley; Irma by R. W. Thurston and E. G. Thurston; Killam by R. C. Kenzie; A. H. Saunders, E. F. Fee, R. Manning; Kitscoty by C. W. Miller; Lloydminster by A. L. Magnus, N. Hunt, R. G. Chapman; Mannville, M. B. Van Dusen, Ross Ewing, W. C. Ewing; Vegreville, F. W. McCarty, Fred W. Laing, Chas. W. Brinton; Wainwright by D. A. B. Brinton and the Vermilion representation.

Many Officials Attend
Officials present included Mr. J. Angus McKinnon, President, Alberta Associated Chambers of Commerce and Agriculture of Dalmend, Alberta; Mr. John Davidson, Director, Alberta Associated Chambers of Commerce and Agriculture, of Wainwright; Mr. Don Marlett, executive secretary, Red Deer; Mr. Don McKay, executive secretary, Edmonton Chamber of Commerce; Mr. M. S. Cooke, Supervisor, Settlement Service Dept. of Citizenship and Immigration, Edmonton; Mr. J. R. Munro, Director, Canadian Chamber of Commerce, Edmonton; Mr. Derek S. Griffin, Manager, Field Service Dept., C. of C., Montreal.

The conference was held at the Legion hall and chairman of the morning sessions was Mr. John Davidson, Director, Alberta Associated Chambers of Commerce and Agriculture.

A welcome was extended by Mr. Keith Chalmers, president of the Vermilion Board. Mr. J. Angus McKinnon, President of the Alberta body then outlined the purposes of such a conference and the method of procedure that should be followed. The purpose in general was to provide an opportunity to link ideas and projects through the Boards in the various districts. He also urged all boards to send delegates to the 15th annual meeting to be held in Red Deer on May 26 and 27. It was only through a sound provincial wide organization such as the Alberta Chamber that ideas and requests could be aired before government officials.

Mr. Marlett's address on "What About This Chamber of Commerce Business," followed and this aroused real discussion with practically all delegates present taking a lively part. It was quite evident that the type of work which boards of trade are required to do varies with the size of the centre in which they operate. The decision was that board of trade business is the which is necessary to the welfare of the community, not looked after by someone else.

Fine Dinner Gathering
Mr. Don McKay gave some very helpful hints under the caption of

a talk "So you are chairman," and following this the gathering adjourned to the St. Saviour's parish hall for luncheon. Here they were joined by many members of the Vermilion Board of Trade, 60 in all, enjoying the sumptuous repast served by the Happy Hour Group. Mr. Keith Chalmers acted as chairman and the freedom of the town was proffered by Mayor Heckbert. The after dinner speaker was Mr. Murray S. Cooke of Edmonton, supervisor of settlement service, the Federal Dept. of Citizenship and Immigration.

Mr. Cooke declared no organization should take a more active interest in immigration than chambers of commerce and boards of trade. He declared that patience, friendship and understanding were the three major essentials in assisting immigrants.

YOUR RED CROSS WHAT IS IT DOING?

There is one service operated by your Red Cross which does not seem to hint of trouble or disaster and that is the Swimming and Water Safety Programme. A typical group of boys is shown above getting some real exercise and learning something about the art of swimming. They will soon go into the water and try to do what they are practicing on land.

Trouble may not seem to be present at the moment, but, lurking just out of sight is TROUBLE for every person who cannot swim and yet goes in or on the water. In Canada there occurs some 1,000 drownings each year. In Saskatchewan about 40 persons will die during the present year from water mishaps. Your Red Cross does not look upon these so called accidents as being necessary and is conducting an energetic campaign to educate both young and old alike that 'Common Sense' coupled with some swimming skill would eliminate most of these needless fatalities.

To reach its goal Red Cross offers free training to competent swimmers over 17 years of age, who are willing to pass along to others their knowledge of, and skill in the water. Last year some 115 of these good people gave free instruction to over 10,000 pupils. No one knows how many lives have been or will be saved because of this training. It is known that because of the distribution of a simple little card to thousands of farmers each year, many 'Dugout' drownings have been reduced from

Frank Backfires On Ontario Ghost

CLARKSON, Ont. — A "ghostly" raid staged by three men in bed sheets, backed and one of the ghosts went to hospital with gunshot wounds.

Police said the ghosts approached Henry Perette, 60-year-old night watchman at a Clarkson gravel pit at midnight, swaying in the moonlight and moaning:

"Henry, we have come to get you."

Perette reached for his 100-year-old sawed-off shotgun and fired.

Forty pellets hit John Purdie, 26, of Toronto. Police said he ripped the prank with two Clarkson men employed at the gravel pit.

ITCH RELIEVED IN A JIFFY

Very first use of soothing, cooling, liquid D.D.D. Prescription promptly relieves any red itch—caused by eczema, rash, scalp irritation, chafing, etc. Itch relief is instantaneous. Ask your dealer for D.D.D. PRESCRIPTION.

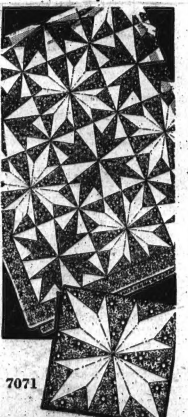

Here's Real Relief for ARTHRITIC RHEUMATIC PAINS—STIFFNESS

W. K. Buckley has discovered how to combine 9 powerful, pain-dispelling medicaments in a new white cream that vanishes: it penetrates to where the pain is—brings relief from stinging, burning, aching, and longer than any rub you have ever used. Ask for BUCKLEY'S Saline WHITE RUB — only 50¢.

FREE — If you are at all skeptical of its amazing results send a 4¢ stamp for trial to Department W. K. Buckley Limited, 250 College St., Toronto, Ontario.

Funny and Otherwise

A man from the country went into the nearby village and bought a pair of shoes. The next day the shoe salesman met him on the street and asked him if the shoes were comfortable.

"Oh, yes," replied the man, "They are quite comfortable."

"Well, if that's so," said the salesman, "why in the world do you shuffle along so slowly?"

"Oh," the man answered resignedly, "that's because you forgot to cut the string that ties them together."

"How are you getting on with your driving lessons?"

"Fine, I've got so I can whiz past another car without shutting my eyes."

"Has your son's college education proved of any real value?"

"Yes, indeed, it's entirely cured his mother of bragging about him."

"Talking of brilliant ideas, old boy... I often wonder who was the married genius who first thought of taking the dog for a run after supper."

It was the first time the lady had been honored as a ship chandler, and she was quite nervous. Immediately before the ceremony the shipyard superintendent asked her, "Is there any question you would like to ask, m'am?"

"Yes," was the meek answer, "if you don't mind, please tell me how hard I must swing to knock it into the water."

"Where Jones?"

"He isn't in. His wife telephoned him that the baby was asleep, and he's gone home to see what it looks like."

An absent-minded man walked into the village barber's shop, sat down in the chair, and asked for a haircut.

"Certainly sir," said the barber. "Would you mind removing your hat?"

The customer complied. "I'm sorry," he apologized, "but I didn't know that ladies were present."

They all told him it couldn't be done.

He just smiled, and went right at it.

They all watched breathlessly as he tackled the thing that couldn't be done.

And sure enough it couldn't.

"John, dear," said Mrs. Browne, "it says in the paper that the average woman has a vocabulary of only five hundred words."

"It's certainly a 'small stock,'" replied her husband, "but just think of the turnover."

Prehistoric Tree Seeds Discovered

OTTAWA. — The federal district commission here will try to grow trees that until recently were believed to have been extinct for 20,000,000 years.

Three small specimens of the tree that was the ancestor of the giant Sequoia and Redwood trees of California have been donated to the P.C.D. by Victoria Parks Commissioner W. H. Warren, member of the commission for British Columbia.

Fossil remains of the trees had been found in many places and they were thought to have died about 20,000,000 years ago, but specimens were found in the interior of China in 1946 and seeds brought to the United States produced trees.

The name of the species is "metasequoia glyptostroboides," the commission said.

SASKATCHEWAN T.B. DEATHS 119 IN 1952

REGINA. — E. C. Hingley, president of the Saskatchewan Anti-Tuberculosis League, said deaths from the disease in Saskatchewan in 1952 are estimated to have been 14.3 per 100,000 population. There were 66 deaths among the white population and 53 among Indians.

REALISTIC DREAM

A 12-year-old boy from an orphanage at Grahamstown, South Africa, who spent a day at the seaside dreamed that night he was swimming. He dived out of the second-storey window of the orphanage and was found on the ground, dazed, with a sprained arm his only injury.

CHANCES ARE GOOD

LONDON. — The weather should be pretty good on Coronation day, June 2. A study of meteorological records showed it has rained only five times since 1875 on that date.

Farm Production Will Be Doubled In Near Future

ST. LOUIS. — A scientist predicts a whole new pattern of farming—with antibiotics—will double farm production. Dr. H. J. Preblud of New York told the national Farm Chemurgic Council recently the use of antibiotics in farm soil may do for crops what penicillin and other antibiotics do for animals, make them grow faster and stay healthy.

He added in an interview that this may solve most of the world's hunger problems, eliminating one of the causes of unrest upon which Communism has tried to capitalize.

Dr. Preblud, biochemist with the United States Industrial Chemicals Co., said recent experiments show that antibiotics, which are produced by micro-organisms in soil and other materials, appear to have two important effects upon soil:

1. In large amounts they are plant disease killers, just as antibiotics now control some animal infections.

2. Small amounts stimulate plant growth. A similar effect has been noted in some animals.

When organic materials, such as barnyard manure, are applied to soils they appear to have a crop stimulating effect far beyond that which comes from the quantity of minerals and chemicals they contain. These organic materials usually contain huge numbers of micro-organisms and Dr. Preblud said the extra stimulation appears to come from the antibiotics they produce.

He said these antibiotics haven't been identified but he believes they can be isolated and produced commercially in great quantities at low cost through scientific methods.

"When we do this it will be the equivalent of opening millions of new acres of land to farmers," Dr. Preblud said.

"Crops will grow so fast we will be able to get two crops a year in many more parts of the country. The plants will be healthier and crop diseases will be held down."

"Production will be doubled or more than doubled without adding a single acre of crop land to a farm."

Manitoba Building Up Cattle Herds

WINNIPEG. — Manitoba cattle producers have halted the post-war trend to reduce their herd holdings. Livestock Commissioner John Conner told Manitoba veterinarians at their 63rd annual meeting.

The slight increase shown in a survey made in June, 1952, has been followed up while U.S. markets were closed to Canadian cattle, Mr. Conner said. He estimated that by June, 1953, Manitoba's cattle population would be 1,000,000 or just about 14 head per farm.

The commissioner said his branch considers this figure as a minimum population unless drought and dry pastures force unexpected marketings.

The Anglo-Saxons called September the barley month.

If You're TIRED ALL THE TIME

Everybody gets a bit run-down now and then, tired-out, heavy-headed, and maybe bothered by backaches. Perhaps nothing seriously wrong, just a temporary lull caused by excess acids and wastes. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys, so as help restore their normal action of filtering out acids and wastes. Then you feel better, sleep better, work better. Get Dodd's Kidney Pills now. Look for blue box with the red band at all drug stores. You can depend on Dodd's. 52

MACDONALD'S Fine Cut

Makes a better cigarette

3 different Cheese-flavored Treats from One Basic Dough!

BASIC CHEESE DOUGH

Scald

1½ cups milk

3 tablespoons granulated sugar

2 teaspoons salt

3 tablespoons shortening

Remove from heat and cool to lukewarm.

In the meantime, measure into a large bowl

½ cup lukewarm water

1 teaspoon granulated sugar

and stir until sugar is dissolved. Sprinkle with contents of

1 envelope Fleischmann's Fast Rising Dry Yeast

Let stand 10 minutes, THEN stir well.

Stir in lukewarm milk and shortening.

Clever one-oven tricks with FLEISCHMANN'S YEAST!

One dough—one oven—three kinds of flavor-thrilled baking! It's easy to be a whiz when you start with Fleischmann's Fast Rising Dry Yeast. Ridiculous, no, sure, so fast—results so light and appetizing! If you bake at home, be sure you have plenty of Fleischmann's on hand.

1. CHEESE LOAF

Shape half a batch of dough into a loaf and fit into a greased bread pan about 4½ by 8½ inches. Grease top. Cover and let rise until doubled in bulk. Bake in a moderately hot oven, 375°, about 40 minutes—cover loaf with brown paper during latter part of baking to avoid crust becoming too brown.

2. MARMALADE BRAID

Roll out a quarter of a batch of dough into an 8-inch square on a lightly-floured board, loosen dough. Spread with ¼ cup marmalade and sprinkle with ¼ cup chopped nuts. Roll up jelly-roll fashion, seal edge and ends. Roll wet into an oblong 9 inches long and 3 inches wide; loosen dough.

Cut oblong into 3 lengthwise strips to within an inch of one end. Braid strips, seal the ends and tuck them under loaf. Place on greased cookie sheet. Grease top. Cover and let rise until doubled in bulk. Bake in a moderately hot oven, 375°, about 20 minutes.

3. CHEESE BRAID STICKS

Cut a quarter of a batch of dough into 12 equal-sized pieces and roll, one at a time, into thin strips about 7 inches long and ¼ inch wide. With water and roll lightly in cornmeal. Place, well apart, on greased cookie sheet. Cover and let rise until doubled in bulk. Bake in a moderately hot oven, 375°, about 10 minutes.

—By Chuck Thurston

PEGGY

OUR COMPLETE SHORT STORY—

Too Late, Too Late

Randall Was in Hospital a
Lot Longer Than He
Expected.

By WALTER E. KLEIN

RANDALL opened his eyes, and planned with sudden fear around the spotless, strange room. A dull ache throbbled at the base of his head. He caught a glimpse of the calendar. The 25th. The anxious beating of his heart subsided a little. He looked at a clock, that stood on a small table beside him. Three o'clock. That meant it hadn't gone off yet. In fact he still had a whole hour.

A door opened, and a white-clad girl strode in. "Oh, so you're awake," she said, brightly. "How do you feel now?"

Randall tried to sit up and groaned. He sank back against the pillow. He remembered now; the screech of brakes, a honking horn, a woman's scream, silent darkness. A jolting ride, that jolted him into confused wakefulness, then darkness again. He must have been in an accident! The revelation came to him with a shock.

"Well, well, what have we here?"

A doctor came to the side of the bed, making clucking noises. He peered professionally at Randall. The doctor picked up his hand. Randall wished the officious fool would go away. He wanted someone, competent. Randall liked competent people, even if he had to pay well for their services.

"Hm, seems all right."

The doctor's fingers probed him, touching bruises here and there. Randall winced. Rage gathered in his heart. Why didn't they get someone competent!

"Well, young man, guess you're all okay. Just shaken up. We'll have you out of here in no time. Got to make room; lots of patients, you know. Too many."

Was that the only excuse they could give him, for putting him in this cubbyhole? Randall liked luxury, even in hospital rooms.

The doctor bustled off, still clucking.

Randall watched him go with a contemptuous smile on his lips. He took another glance at the clock. 3:15. Only forty-five minutes to go. Excitement stirred in his breast.

Lucky the accident had happened when it did. It might even come in useful. He'd been too excited when he'd dashed away from the warehouse, and hadn't been watching his step, or it would never have happened. Randall never had accidents.

But, anyhow, this one had happened opportunistically.

If he'd woken up like this, in a hospital, the week before, he'd have been terrified. The thought of the bill alone would have started his heart pounding with fright. Last week Randall was flat broke, with no plans.

He was still broke, but he'd made plans. In forty-five, no, only thirty-five minutes, he'd have more than enough money to pay all his bills, and give him a new start. The insurance money would take care of that.

He turned over and went to sleep. He'd wanted to be awake at four o'clock, but the accident and his previous labors had exhausted him. He slept soundly.

At five o'clock he awakened to find he had a visitor. He smiled when he saw the visitor. His visitor was Wiggins, his mousy, male secretary.

"Mr. Randall, oh my, this is terrible!"

"Well, man, out with it!" Randall's heart thumped. Had it worked? Of course it had; Wiggins wouldn't be here if it hadn't.

"Your warehouse, it bur . . . maybe I shouldn't tell you in, in your condition . . ."

"Never mind my condition! Out with it!"

The secretary's eyes were bloodshot. "Your warehouse burned down!"

Randall sighed in relief. All his plans had gone off properly. "What?" roared Randall, "how'd it happen?" Was anything salvaged? Was anything, er, wrong discovered? There was no reason for that building to burn. Someone was careless! Someone will have to pay!

"No, oh no, Mr. Randall. It burned down completely. Nothing left. It was awful!" Wiggins caught his breath. "I didn't tell you the worst of it. I meant to tell you yesterday, but you were talking about not having any money on hand, so I . . ."

A knife pang of fright seared Randall. "What did you say? Come, come, man!"

"You didn't give me any money, and so I . . ." Wiggins retreated a step as he caught sight of Randall's contorted features. "I'm really sorry, Mr. Randall, but it wasn't my fault. You see, your fire insurance policy lapsed yesterday. I didn't renew it for you. I would have, but I . . ."

Randall was in the hospital a lot longer than he expected.

TO LEAD SCOUTS' CORONATION CONTINGENT—In charge of Canadian contingent of Boy Scouts that will attend the coronation on June 2, will be Scoutmaster J. Barry Caldwell of Shawinigan Falls, Que. Scheduled to sail for England on May 18, the group, comprised of boys from all across the country, will return to ward the end of June.

Larger Demand
For Homesteads
In Alberta

EDMONTON.—The lands and forests department reported there was "a substantial increase" in demands for Crown lands for homestead purposes in Alberta last year.

Approximately seven townships, or 1,000 quarter-sections, were opened for settlement in 1952 and several additional townships will be opened this year.

At the end of 1952 there were 6,250 homestead leases in force covering 1,520,000 acres of Crown lands providing a net revenue of \$138,956.

The department reported aggregate value of forest products cut and removed in 1952 was estimated at \$27,500,000 compared with \$18,900,000 in 1951.

Last year 391,101,000 board feet of lumber, 1,194,000 railway ties and 33,000 cords of fire-killed spruce pulpwood were cut and removed from forests.

Exporting Gas On "Province First" Basis

REGINA.—Saskatchewan has decided to export her natural gas but only on a "province first" basis.

Announcement of a gas export policy was made in the legislature by Resources Minister J. H. Brockelbank. The policy follows the same general pattern as that laid down in the House of Commons by Trade Minister Howe.

Saskatoons
For Your
Gardens

Two named strains of high quality native Saskatoons are being introduced by the Beaveridge Experimental Station, report J. A. Wallace and V. Chanayak, Experimental Station, Beaveridge, Alberta. They will be welcomed in prairie and northern home gardens where they will provide growers with a fruit they have favored since the pioneering days of the West, and where it may be difficult to produce cultivated fruits. It is fortunate that the Saskatoon responds well to cultivation, since the breaking up of virgin land is fast destroying the favorite patches that were so handy to the home.

The new strains have been named Pembina and Smoky, after rivers in the regions in which the original selections were discovered. They have been selected as the best of numerous species, strains and selections growing on the station for many years.

The large, juicy, pleasant flavored berries are reliable for eating out of hand and as dessert. They are also desirable when preserved.

Maximum fruit quality is obtained when plants are spaced six to eight feet apart and the soil about them kept cultivated. Planted in this manner, the Saskatoon will produce an attractive loose hedge or screen, providing a profusion of colorful bloom during May. It is also valued for ornamental planting and when grown in windbreaks the abundant fruit produced attracts a wide range of bird life during autumn and early winter.

There are several disadvantages in propagating the Saskatoon by budding or grafting, such as the difficulty of obtaining suitable stock and the high cost of production. Thus the new introductions will be distributed as seedlings of the original selections which are propagated vegetatively for seed purposes. Little of the quality of these selections will be lost, since it has been found that the work conducted at Beaveridge, that 85 per cent. of the seedlings retain the high quality of the parents.

Pembina

This selection was discovered as an isolated plant (clone) in the Pembina River district of Barrhead, Alberta. The fruit is large, fleshy, slightly oval and is borne in fairly long clusters. The flavor is full, sweet and tangy. The bush is upright and slightly spreading, vigorous and productive and produces comparatively few suckers.

Smoky

This strain was selected from plants growing in the native state on the station and was previously listed as B.E.S. No. 6. The fruit is large, fleshy, round, and is borne in medium-sized clusters. The outstanding characteristic of the Smoky strain is the unusually sweet, although mild flavor. The bush is high and spreading, which permits easy picking, but the form tends to hold the snow and this may cause some mechanical injury. Root sprouts are freely produced—Western Producer.

TO CUT ACCIDENTS

Don't Speed.
Be Courteous.
Drivers Told

A spokesman of the Montreal Traffic Safety Council says: "Statistics and common sense prove that too much speed and bad motor manners are the chief factors in the majority of accidents. The human element is the problem."

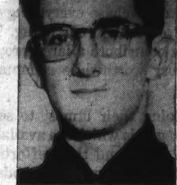

"As for good motor manners, it simply means that drivers should be as courteous behind the wheel as they are in the office or at home."

The Safety Council listed the following suggestions for would-be courteous and accident-free motorists:

1. Give pedestrians time to get out of your way;
2. At night, lower your lights when meeting other cars;
3. Yield the right of way, even though the other fellow may be wrong;
4. Overtake and pass only when you are, sure you can do so with safety to other cars as well as your own;
5. Walk out for children—let them cross safely. Especially, know and obey local regulations about stopping for school buses when children are getting on or off;
6. Adjust your speed according to conditions of weather, road and time of day;
7. Don't be a road hog. Keep to the right;
8. Don't "born your way through traffic."

Itch... Itch... I Was

Very few of us, no matter how healthy, are free from itching. Itching is caused by many things, such as dry skin, insect bites, allergies, etc. It is a common complaint, and it is important to know how to relieve it. Dr. D.D. Prescription is a safe and effective remedy for itching.

"Night Traveller"
Last Of Old
Type Indians

NORTH BATTLEFORD, Sask.—Night Traveller, one of the last of the "old type" Indians, is dead. He wore long braids and a bright red kerchief around his head and walked with an air of dignity.

Night Traveller was a boy of 10 when the Cree made their move with the Crown at Fort Carlton on the North Saskatchewan river, and to the end he plied his trade in Queen Victoria's word. He never considered the revised Indian Act as law.

At the close of each tribal meeting at the Little Pine reserve, Night Traveller would intone in Cree: "As long as the sun shines and the river flows, the promises of the Great White Queen to her Indian children will never be broken."

As a boy, Night Traveller was made to kill a buffalo by his father. At 15 he was a brave of the tribe and a sure shot. In the fighting at Cut Knife hill May 2, 1885, Night Traveller shouldered a rifle in defence of the Indians' way of life.

It is believed that Night Traveller may have left some of the legends of the Battle River Cree on record in syllables, the code invented a century ago by a Methodist missionary which gave the Indians their first written language other than sign writing. The legends, hitherto had been handed down only by word of mouth.

Manitoba Turkey
Preferred Weekly
Newspaper To Dailies

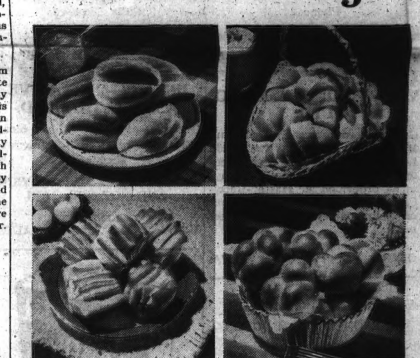

WINNIPEG.—There was once a Manitoba turkey who preferred weekly papers to dailies—but it doesn't bother him now.

Mrs. Roxie Holmes, of Winnipeg, recently began to dismember a turkey that had been in her deep freeze since Christmas and discovered a rolled-up double tabloid page from a weekly in its stomach.

"The paper was perfectly readable, untorn and dated March 6th, 1952. You could have knocked me down with a feather," said Mrs. Holmes.

Do You Know That . . .

Rural people are more musically inclined than city folk and are less likely to discontinue their musical activities once they have started.

4 delicious treats
...make them from
One Basic Dough!It's amazingly simple with
wonderful active dry yeast!

If you bake at home, find out the wonderful things you can do with Fleischmann's Fast Rising Dry Yeast! Serve fragrant rolls or fancy breads in variety from a single dough! Always get Fleischmann's Fast Rising Dry Yeast—it stays fresh in your cupboard, and acts fast in your dough!

BASIC ROLL DOUGH

1 cup milk
1 teaspoon granulated sugar
2 1/2 teaspoons salt
4 tablespoons shortening

Remove from heat and cool to lukewarm. In the meantime, measure into a large bowl:

1/2 cup lukewarm water
1 teaspoon granulated sugar
and salt until sugar is dissolved. Sprinkle with contents of 1 envelope Fleischmann's Fast Rising Dry Yeast.

1st stir 10 minutes, THEN stir well; stir in cooled milk and water.

2nd stir lukewarm water.

3rd stir once-fifth bread flour and beat well; smooth and slightly work in 3 cups more (about) unbleached bread flour.

Turn out on lightly-floured board and knead dough lightly with smooth and elastic. Place in a greased bowl and cover top of dough. Cover and set dough in warm place, free from drafts, and let rise until doubled in bulk.

Turn out dough on lightly-floured board and knead lightly until smooth. Divide into 4 equal portions and divide as follows:

1. PARKER HOUSE ROLLS

Roll out one portion of dough on lightly-floured board into a 14-inch round. Inset rounds with 3-inch outer border with washed butter or margarine. Grease each round deeply with half side of butter, a little to one side of each round, fold larger half over smaller half and press along the fold. Place, just touching each other, on greased cookie sheet. Bake in hot oven, 400°, about 12 minutes. Makes 6 rolls.

2. CLOVER LEAF ROLLS

Cut one portion of dough into 8 equal-sized rounds, cut each round into 3 equal-sized triangles. Roll each triangle into a ball and brush with melted butter or margarine. Arrange 3 balls in each greased muffin pan. Cover and let rise until doubled in bulk. Bake in hot oven, 400°, about 12 minutes. Makes 6 rolls.

3. PAN TARTS

Roll out one portion of dough on lightly-floured board into a 14-inch round. Inset rounds with 3-inch outer border with washed butter or margarine. Grease each round deeply with half side of butter, a little to one side of each round, fold larger half over smaller half and press along the fold. Place, just touching each other, on greased cookie sheet. Bake in hot oven, 400°, about 12 minutes. Makes 6 rolls.

4. CRESCENT ROLLS

Roll out one portion of dough on lightly-floured board into a 14-inch round. Inset rounds with 3-inch outer border with washed butter or margarine. Grease each round deeply with half side of butter, a little to one side of each round, fold larger half over smaller half and press along the fold. Place, just touching each other, on greased cookie sheet. Bake in hot oven, 400°, about 12 minutes. Makes 6 rolls.

5. CROISSANTS

Roll out one portion of dough on lightly-floured board into a 14-inch round. Inset rounds with 3-inch outer border with washed butter or margarine. Grease each round deeply with half side of butter, a little to one side of each round, fold larger half over smaller half and press along the fold. Place, just touching each other, on greased cookie sheet. Bake in hot oven, 400°, about 12 minutes. Makes 6 rolls.

Celebrate Birthday

Ford Motor Company of Canada celebrates a birthday this year.

It was just 50 years ago that a little "horseless carriage" factory started up in Detroit, doing business under the name of Ford Motor Company.

Today the giant Ford companies of the United States and Canada, and companies bearing the Ford name in 23 other countries, demonstrate the amazing success of Henry Ford's magic idea: "I will build a motor car for the great multitude."

The anniversary year finds Ford of Canada well into the biggest expansion of its history, and one of the largest industrial expansion programs Canada has ever seen. In May cars will begin coming off the line in the giant new assembly plant at Oakville, Ontario. And in the traditional automotive centre of Windsor an equally large expansion is underway as Ford of Canada invests an estimated \$32½ million in a program to modernize and enlarge every aspect of its manufacturing operations.

Boards of Trade

(Continued From Front Page) ing newly-nationalized Canadians.

No More D.P.'s

He declared that such understanding was the least contribution residents of Canada could give in assisting in the government's immigration plans. He also asked that reference to DP's be stopped as there were now no such persons as DP's. Explaining this, Mr. Cooke declared that Canada and the U.S. had agreed to take certain quotas of such displaced persons after the war. He said that such persons had been absorbed some time ago and that new arrivals now could not be classed as DP's.

He added that all are nationalized and come to Canada with the hope of settling down to learn Canadian ways and be good Canadians.

Farm Population Drop

Mr. Cooke, speaking of the depleting ranks of farmers, said that in an area from Lloydminster to the east to Vegreville on the west, that there were 2000 less farmers on the land in this area at present than in 1941.

Mr. Cooke added that the best publicity in Canada and immigration was in the letters immigrants wrote home. He added that such letters, naturally, would be based on the reception the immigrants received in Canada.

The conference resumed at the Legion hall at 2 p.m. with Mr. Keith Chalmers of Vermilion as the chairman.

Business and Agriculture

The first address was that of the president of the Provincial body, Mr. J. Angus McKinnon, a farmer from Dalmear, near Calgary. He declared in opening that he represented the agricultural viewpoint in this chamber of commerce business, and that good relationship between urban and rural people was essential and just as much an advantage to one as to the other, and he cited many examples to prove this statement. His topic was "Business and Agriculture" and would prove an interesting address at one of the agricultural banquets which the board holds annually. He emphasized the agricultural aspects of the Canadian Chamber of Commerce, this

phase of work having grown immensely within the past 5 years.

Compliments Alberta Cabinet

John Davidson of Wainwright, a director of the Provincial chamber, told of the recent delegation which waited on Premier Manning and his cabinet following the provincial convention held last spring. The delegation of which he was a member presented the various resolutions to the cabinet and received a very courteous hearing indeed.

He went on to say that the premier and his cabinet were an exceptionally intelligent body of men with a very wide knowledge of provincial affairs, in fact, despite the fact that he himself had been the Liberal candidate for Wainwright in the last provincial election, he was greatly impressed by the personnel of the Alberta cabinet. The cabinet was found to be very receptive to the suggestions made by the Associated Chambers.

Member Boards Increase

Mr. Derek S. Griffin, manager of the Field Service Dept. of the Canadian Chamber from Montreal, gave a short-talk stating that memberships had grown in the parent organization from 150 boards to 700 boards within a few years. He showed some very interesting moving pictures on the evolution of the community and the gradual necessity of the Chambers of Commerce.

Functions of Boards

Functions of boards of trade were again reviewed in Mr. J. R. Munro's address titled "Wider Horizons." He is a director of the Dominion body and comes from Edmonton. A board's activities are a combination of service work and business organization, although the first job is to represent business, said Mr. Munro. "Business to thrive must give something to the community and the Board of Trade is expected to do this public service job and do it well," concluded Mr. Munro.

Approve Regional Conference

A Resolution was passed approving of the holding of such regional conferences and asked that one be held in this area again next year. An invitation was extended by Mr. L. D'Abertans to hold the next conference at Wainwright.

A reception was held at the conclusion of the program when women joined visiting delegates in a social hour.

HOME ECONOMIST NEWSNOTES

Shirley Holmes, Wainwright, Alta.

Stain Removal—Before putting clothes into the washer, check them for stains. Most stains can be removed by the homemaker. Good guidance may be obtained by writing me for the free booklet — "Stain Removal."

Freezing Tips—For those of you who already have a home freezer or plan to have one, did you ever think of freezing sandwich fillings? It is so handy just to go to the freezer, take out your favorite spread and make up your sandwiches in a matter of a few minutes.

Use day old bread for ready-made sandwiches. Wrap in moisture-proof cellophane, and carefully heat seal both across the top and on the sides with a hot iron. Pack in rectangular boxes with pieces of waxed paper or cellophane between the layers, if more than two sandwiches are being packaged.

Thaw sandwiches in their sealed original wrappings. A package of two half-sandwiches will thaw in three hours at room temperature. Thaw sandwiches will thaw more quickly.

Serve sandwiches immediately after thawing to prevent the fillings from spoiling.

Mayonnaise separates on freezing. Use lemon juice and then cream instead to make the fillings spread easily.

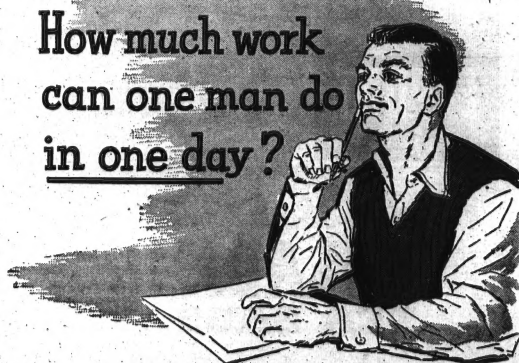

Do not freeze perishables as tomatoes or lettuce. Sandwich fillings suitable for freezing are—meat spreads, peanut butter spreads, cheese, fish and egg.

Write for the free recipe sheets "Frozen Food Delicacies" and "Frosted Food Fancies."

The original provinces of the Confederation of Canada were New Brunswick, Nova Scotia, Ontario and Quebec.

The Canadian Wildlife Service is applying television to the study of fish and their habits in a trout lake near Banff, Alberta.

How much work can one man do in one day?

Enough for ten men, or even more, if he multiplies his efforts with the latest farm implements, such as field cultivators, milking machines, combines and tractors. And, when ten 'men' are hard at work, you make ten times as good use of every hour. And your income is, of course, greatly increased.

So, if a lack of ready cash stands between you and any one of these mechanical farm-hands, you owe it to yourself to look into the question of a B of M Farm Improvement Loan.

Drop in at your local B of M office just as soon as you find it convenient. You'll be pleasantly surprised at the low cost of a B of M Farm Improvement Loan, and at the easy repayment terms that can be arranged. Boost your income by multiplying the results of your work.

THE WORLD OF WHEAT

By H. G. L. Strange

THE PIONEER SPIRIT

"To be a pioneer does not insure success, nor does success depend on pioneering, but the pioneer spirit is the basis of all social progress whether it be in the field of industry or art, science or religion, or any other sphere of thought or deed."

This was written by the late Mr. Albert Farwell Bemis, President of the Bemis Bag Company, who himself was a real Western pioneer.

This brings to mind what all of us on these Prairies owe to this very "Pioneer Spirit". To, for instance, the pioneer settlers who came from many different nations in the world to an unknown prairie country, hoping for success but willing to accept hardships and to take chances. To those who put up the capital to build the CPR with its daring venture of a transcontinental line, which at the time was called folly and madness. To early Elevator Companies and other merchants risking their capital in an unknown area, to people of many countries willing to risk their savings to start new ventures and industries, and to the almost forgotten early pioneers who headed agrarian movements to secure better advantages for their fellow farmers. How true it is that it is the "Pioneer Spirit" that is the basis of all real human progress.

LICENCE DEADLINE SET APRIL 13

EDMONTON—E. R. Hughes, deputy provincial secretary, said Friday sales of 1953 motor licences have been unsatisfactory. He said police will be instructed to start by April 13 prosecution of all motorists still using 1952 plates.

Sales of passenger car licences opened five weeks ago but motorists have shown little interest in purchasing new tabs.

Mr. Hughes warned that the expiry date is next Tuesday and there is no assurance that police will not begin prosecutions immediately after that date.

CANCER CRUSADE LAUNCHED IN ALBERTA

A drive to raise \$1,500,000.00 throughout Canada to fight cancer was launched this week in Alberta.

The announcement was accompanied by a statement from G.R.A. Rice of Edmonton, President of the Alberta Division of the Canadian Cancer Society and a message from Society Provincial officials.

"The key to success in fighting cancer," Mr. Rice said, "is the volunteer worker. On the eve of this 1953 Crusade I want to pay tribute to the volunteers in this community who will shoulder the task of raising funds and informing people how they can best guard against cancer."

The entire programme of cancer control hinges on their work. If it were not for their efforts there would be no national half million dollar research programme; there would be no service programme for cancer patients and there certainly would be no chance of people getting the life-saving facts about detecting and curing early cancer.

We have been assigned a goal of \$200,000.00 as our share in the National Campaign. I want to make sure everyone realizes that this is a minimum figure. We can, with a little extra effort, exceed our quota. I am sure that all the residents of this community will join me in this objective."

R. D. PURDY, WHEAT POOL EXECUTIVE DIES

R. D. Purdy, general manager of the Alberta Wheat Pool, died suddenly at his home in Calgary on Sunday, March 29. In the position he occupied for over 28 years he was known and respected throughout the length and breadth of the province and his passing is regretted by many thousands of people.

The late Mr. Purdy was born in Brighton, Ontario, in 1899, his ancestors being of United Empire Loyalist stock. He came with his parents to Alberta in 1906, his father having purchased a farm in the Millet district. R. D. Purdy, then a boy of 17, took a business course in Edmonton and entered the employ of the Merchants Bank of Canada at Wetaskiwin. When that bank was absorbed by the Bank of Montreal Mr. Purdy was kept on the staff and in 1922 became the assistant manager of the main branch in Edmonton.

The Alberta Wheat Pool was formed in 1923, the first manager being Chester T. Elliott who died two years later. R. D. Purdy was chosen as his successor early in 1925. Later when the Pool elevator system was built he became manager of the entire organization, a position he filled with great ability until his death.

VILLAGE OF IRMA

BYLAW No. 189

A Bylaw of the Village of Irma, Alberta, for the purpose of authorizing the Council to sell certain land.

Pursuant to Section 294 of the Town and Village Act Chapter 97, RSA 1952.

Whereas

It is considered desirable in the best interests of the ratepayers of the Village of Irma, Alberta.

That

The Council of the Village of Irma, Alberta enacts as follows:

That the Council of the Village of Irma, Alberta, do and are hereby empowered to sell certain land, all or any portion thereof for the purpose of erecting dwellings thereon. Such property being a part of all that portion of the Southwest Quarter of section thirty four (34), Township forty five (45), Range nine (9) West of the fourth meridian in the said Province of Alta., bounded as follows:

On the West by the Western boundary of the said quarter section, on the north by a line drawn parallel to and seven hundred and twenty six feet (726) perpendicularly distant northerly from the Southern boundary of the said quarter section; on the east by a line drawn parallel to and one thousand three hundred and twenty feet (1320) perpendicularly distant easterly from the western boundary of the said quarter section; and on the south by a line drawn parallel to and sixty six feet (66) perpendicularly distant northerly from the southern boundary of the said quarter section containing twenty acres (20) more or less reserving unto Her Majesty all Mines and Minerals.

and described as follows:

All the most westerly three hundred (300) feet commencing at a point three hundred (300) feet from the Southwest corner of Section 34, Township 45, Range 9, West of the Fourth Meridian being a parcel of land three hundred feet (300) in an east-west direction and six hundred and sixty feet (660) in a north-south direction. Containing four point four (4.4) acres more or less. Done and passed in open council assembled at the Village of Irma this 24th day of March, 1953.

Passed first reading and second reading.

V. S. Sampson, Wm. Symington.

I, A. C. Charter, hereby certify that the above copy of Bylaw No. 189 of the Village of Irma is a true copy of the synopsis of Bylaw No. 189 and that on the 15th day of April, 1953, voting on the proposed bylaw will take place in the office of the Village of Irma between the hours of 10 a.m. in the forenoon and 7 p.m. in the afternoon to approve or otherwise the said bylaw. Should the bylaw be approved by a two third majority of proprietary electors voting thereon the Council shall, within a period of four weeks, proceed to pass Bylaw No. 189 in its third and final reading.

3-10 A. C. Charter, R.O.

North America's first water wheel to turn a millstone for the grinding of wheat was built at Annapolis, Nova Scotia, in 1605.

farmers in the fall of 1954.

CALF SCOURS

Several losses have occurred during the last months due to white scours in new born calves. White scours is an acute infectious disease occurring mainly in new born calves during the first few days of life. It is more prevalent in fall and winter months stabled calves. The predominant symptom is a white diarrhoea. Infection spreads rapidly from one calf to another and from younger calves to older ones. Scours are caused by a germ that is commonly present in stable manure or litter and the infection is picked up by mouth or the opened nava of the calf at the time of birth.

Prevention is the greatest factor in control of calf scours. The pregnant animal should receive good quality green roughage to assure the calf with ample supply of Vitamin A at time of birth. Lack of Vitamin A contributes to this disease. Always make sure that the calf gets its mother's first milk as this contains large quantities of Vitamin A which the calf requires for disease resistance. Sanitation is also very important. Provide a clean stall, and one that is well bedded and free of draughts for a cow to freshen. At birth disinfect the navel with tincture of iodine. Clean all utensils used in feeding the calf. As an assurance or added prevention, feed your calves 1 teaspoon cod liver oil starting the first day for a period of two weeks.

If infection does occur, separate sick calves from healthy ones to prevent spread of the disease. Infected, young calves become depressed and weak and are hard to treat with the result that death is sudden, therefore prevention is strongly recommended. New antibiotics such as streptomycin and sulfa pills, or aureomycin T.F., that are on the market nowadays offer fairly good results in treatment. Before using these consult your vet for instructions.

In one case, the writer knows of a farmer troubled with white scours in his calves who used eggs and reports to have obtained good results. The protein of egg, in some cases is needed where calves are deficient due to insufficient or poor colostrum, and will fulfill the calf's requirement. When eggs are fed, feed at the rate of 1 egg a day for three months. If no improvement, consult your vet for use of antibiotics.

"GATEWAY" BARLEY

Already we have received enquiries on the new variety of barley called Gateway, that has been produced by the University of Alberta and licensed recently by the Federal Dept. of Agriculture. We are informed that this variety is a cross between Olli and Newal, and the Plant Science of Faculty of Agriculture, University of Alberta state that Gateway is as early as Olli, is higher yielding, has slightly stronger straw and has smooth awns. Farmers should note that there is no need of this variety for distribution to them this year as only a very limited supply of stocks of Foundation seed is presently available. It is hoped that seed of this variety will be available to

RABIES AND COYOTES

Again we wish to remind farmers that coyotes can and are a source of spreading rabies. Now is an opportune time to destroy coyotes through the use of cyanide guns. Although other means in destruction of coyotes are helpful and encouraged, cyanide guns are available for every person occupying land in the MD of Beaver who wishes to obtain their use. These guns are available through this office and the municipal office. With spring here and snow disappearing quickly, open tracks of land where coyotes are presently occupying, and no livestock will be present for another month, such areas could be used for setting up poison guns to reduce the coyote menace, at which time we quote a statement from Dr. Ballantyne, Chair Man, Central Rabies Control Committee: "Kill the coyotes now to protect your livestock and dogs from getting rabies. Remember, a rabid dog is the main animal to bite humans. So kill the coyotes as they are the wild animals most likely to bite your dog."

FARM RADIO PROGRAM

Farmers of this area will be interested to learn that a new farm radio program entitled "Call of the Land" is being sponsored by the Alberta Dept. of Agriculture and will commence on April 1. The broadcast of ten minutes duration will be heard Monday through Friday over CFRN starting at 12:10 p.m. and CKUA at 12:35 p.m.

MUNICIPAL SEED CLEANING PLANTS

Alberta's Municipal seed cleaning plants are providing valuable service. F. F. Parkinson, Alberta Dept. of Agriculture supervisor, reports a total of 960,000 bushels of grain cleaned during the 1951-52 season by the five plants then in operation. Since that time three more municipal plants have been completed and at least five areas are at present organizing with a view to building plants as soon as possible. Plants are now operating at Camrose, Wetaskiwin, Morinville, Westlock, Marwayne, Vegreville, Mundare and Rosebud. This service was made possible by taxpayer co-operation, municipal participation and Alberta Dept. of Agriculture assistance.

As well as cleaning the farmers' seed, these plants act as distributing centres for clean seed. Surplus seed in the district and farmers' requirements are listed by the operator, and seller and buyer are thus brought together. If a shortage of seed occurs, the plants are in a position to bring in carlots of seed, clean it and distribute to the farmers. If a district served by a plant has a seed surplus and some other district is short, the plant can assemble, clean, and ship this surplus to the district requiring it.

Farmers in areas served by municipal plants are advised by Mr. Parkinson not to leave their seed cleaning until the last minute. Avoid the spring rush by making arrangements with your plant manager now, he advises.

A MONEY MAKER

Every farmer should sow a few acres of clean land to some Registered seed each year. This has been found to be one of the best money-makers for the farmer. The cost is very little.

VACATION PARADISE: The seashore or the Rocky Mountains—What is your idea of a summer vacation paradise? You name it and Canada can supply it. Golf, swimming, deep-sea fishing, sailing—Canada can fulfill the wants of the most idealistic vacationer. Shown here are two typical Canadian summer scenes depicting two widely separated vacation play-

grounds. Mile-high Banff Springs Hotel, cradled in the Bow Valley of the Canadian Rockies is just as near or as far as the idyllic sea-shore setting showing Digby Pines Hotel at Digby, N.S. Canadian Pacific summer resorts across Canada are now laying plans to handle thousands of Canadians who subscribe to the theory "See Canada First."

Many Staking Claims In Beaverlodge Uranium Field

URANIUM CITY. — "Stake some claims and make your fortune." That's the advice well-known Uranium City merchant Gus Hawker gives strangers visiting this booming mining town in the centre of northwestern Saskatchewan's 500-square-mile Beaverlodge Uranium field.

Hawker has followed this advice himself (he hopes to retire to England later this year on profits from his store and claims sales) and, in general, it reflects the surging wave of optimism now sweeping this hottest of Canada's mineral "hot spots" today.

Right now, the snow-bound, near-mountainous Beaverlodge country is alive with claims stakers, as possibly the greatest staking rush ever recorded in Canadian mining continues unabated. During one recent 12-day period (February 26 to March 10), 1,600 claims were recorded by submitting records to "Bill" MacDonald in Uranium City.

In all, between 4,000 and 4,500 claims have been staked and recorded here since early last summer. MacDonald believes the total count for 1953 will top 6,000, compared to some 1,300 last year.

He dates beginning of the present rush up here (which dwarfs last August's) at January 24, when he sold 54 miner's licenses. By March 10, he had sold 420 and the heavy demand was continuing despite the fact that current licenses expire April 13. On the basis of these sales, alone, he expects at least another 1,000 claims to be staked and recorded.

There are now close to 7,000 claims in good standing in the Athabasca mining district, while the total investment presently tied up in the Beaverlodge uranium field is estimated at between \$35,000,000 and \$40,000,000. The expenditures on exploration and development during 1953 are expected to top \$8,000,000, and may end up close to \$10,000,000. With money like this being spent on exploration and development, the possibility of establishing new uranium mines at Beaverlodge appears to be excellent.

Prospectors know their minerals and they also know the mining game. When word reached Uranium City late last January that Gunner Gold Mines stock had shot up to \$13 from a few cents last fall on the strength of a promising development at Beaverlodge, they wasted no time "getting back to the bush".

Soon, everyone in Uranium City old enough to hold a miner's license (18 years) got into the act and the staking rush was on.

Synonymous with a hectic flurry on the Toronto stock exchange has been the land office business in claims sales at Beaverlodge. Well situated claims have been going for as high as \$2,000 a piece; those in poorer locations for as low as \$250. Patrick Hughes, who won fame as a

the first staker to record claims during last August's Beaverlodge uranium rush, is said to have disposed of three groups of claims for \$75,000. "Deals" like this are common up here today.

Among the estimated 300 bonafide prospectors now active in the Beaverlodge field, Charlie Menifee, 80, could be singled out as a typical northerner. Menifee, born near Lexington, Kentucky, moved to Canada in 1910; started prospecting in northern Ontario the following year. He came to Beaverlodge last June and since then has staked or otherwise acquired 200 claims (in land area, about 15,000 acres).

"Right now," explains Charlie, "I'm working on the biggest deal of my life. Next month (April), I hope to form an exploration and development company and if my hunch is right, I'll have a uranium mine going with in a couple of years." If Charlie's plans do work out, he will get 10 per cent of the new company's stock issue, a percentage of royalties, and will be manager of the field operation.

Charlie says he has been offered \$1,000 each for his claims, but has turned this down in favor of developing them himself. He figures that if he can develop a mine, he will make many times that. "Besides," he points out, "I don't go much for the quick turnover deals."

He admits this is his "last chance" to strike it rich. "Most of my buddies back in Ontario have made their money," he says, adding, "I've come awful close a couple of times myself." All he really wants now is "a few thousand to tide me over my old age."

Charlie thinks the present uranium boom is "the biggest thing in Canada's mining history." Nevertheless, he admits the odds are still stacked heavily against the old-time prospector, few ever really striking it rich. He used an old adage to good advantage when he said, "We live in hope and die in despair."

Warns Farmers Of Impaired Driving

REGINA.—J. A. Christie, chairman of the Saskatchewan Highway Traffic Board expressed surprise that many farmers had recently been convicted of impaired driving.

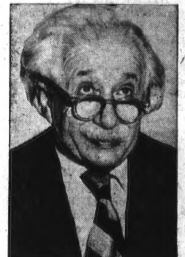

"If a driver is convicted for this offense at this time of the year," he said, "it means that he will be without his license for seedling and harvest. I cannot understand why a farmer would take this chance, when he is going to need his car all summer."

The usual recreation imposed by the board for impaired driving continues for six months, providing that it is the first offense.

Mr. Christie emphasized that the board will stick by all decisions in such cases. The excuse that the license is needed for farm operations will not suffice to get it back before the full revocation period is up.

RECREATION IS GOOD MEDICINE

As an aid to mental and physical health everyone, from childhood to old age, needs recreation of some kind. The school athlete benefits from his sports while the less strenuous hobbies of the older person are usually more sedentary sparetime occupations. Whatever form of recreation is chosen, it should differ from the daily job as much as possible in order to provide interest and relaxation. Those whose daily work keeps them indoors should, if possible, choose an outdoor hobby; gardening, an ancient favorite, provides exercise, interest and fresh air and is usually beneficial from childhood to old age. Handicrafts, a more restful form of relaxation, cover a wide range of interests. The public library can usually supply many books on this subject.

STILL BUSY AT 74—Caught in a rare moment, Dr. Albert Einstein, known as the father of the atomic age, is shown as he was interviewed by the press at a party celebrating his 74th birthday held at Princeton, N.J. One hundred community leaders from the U.S. and Canada were on hand to pay tribute to the brilliant scientist and professor at Princeton, who received, as one of his birthday gifts, the model of a new \$25,000,000 medical center which will be constructed in New York and will bear the name Albert Einstein College of Medicine.

Helpful Hints

Biting fingernails (and lots of people do) is a bad habit—don't lay the blame on nervousness.

Brushing the hair vigorously daily, helps to keep it clean. Washing the brush at least two or three times a week also helps keep it clean.

If dirt that has become ingrained and difficult to remove, try rubbing the spots with petroleum jelly, or any oily cream, allow to stand for a few minutes, then wash in hot sudsy water, using a soft nailbrush. Several treatments may be necessary for stubborn spots.

Good lighting helps to prevent fatigue and promotes safety. Work surfaces need enough light for good seeing both day and night. Light-colored walls, of dull or semi-gloss finish are best for reflecting a maximum of light without glare.

Loose cotton gloves of the gardening variety, worn when doing dusting and other household jobs, help to keep your hands "lily-white and soft." You will soon become accustomed to working with gloves on. Try it and see.

INVENTED IN 1894

"Favril glass was invented by Louis Tiffany in 1894. It is a variety of iridescent enameled glass.

Mrs. John Drainie Puts on Blue Bonnet — Finds it Best!

Take your cue from Mrs. John Drainie — "Claire Murray" of radio fame, and wife of the well-known actor; Compare Blue Bonnet Margarine with any spread at any price! Like this leading Canadian lady, you'll find Blue Bonnet's fresh, sweet flavor always rates top billing. You'll love it's year-round nutritional value. You'll be delighted with the dollars you save, when you use Blue Bonnet. Blue Bonnet Margarine is sold in the regular economy package with color water. Also in the famous Yellow Quik bag for fast, easy color.

Funny and Otherwise

Little Johnny started the day by insulting the cat to the cat's mother. Next he upset the bowl of goldfish. Twisted a knob off the radio, took grand-dad's watch to pieces, and let the bath overflow.

"The little fiend!" his mother said when, she was told. I'll punish him for that. Now he shan't go to Sunday School!"

"Much depends on the formation of early habit."

"Don't I know it! When I was a baby my mother hired a woman to wheel me about, and I've been pushed for money ever since."

Miss Frost: "Before we drive any farther I want you to understand that I don't flirt, so don't try to hold my hand or kiss me. Is that clear?"

"Yes."

"Now that that's settled, where shall I flirt?"

"Home."

"Well, Willie, your sister and I are going to be married. How's that for news?"

"Shucks! You just finding that out?"

A woman went to a domestic servants' agency and landed what looked to her like an ideal maid. She described the household duties to her, adding: "In our house, it has always been a custom to have breakfast in bed."

"Is that so?" was the chilled reply. "Yours or mine?"

The production manager was interviewing a man for a job. "How long did you work in your last place?" he asked.

"Fifty years."

"How old are you?"

"I'm thirty."

"How could you work fifty years when you are only thirty-five now?"

"Overtime!"

At an officers' club in London the members were bidding farewell to a man leaving for the Far East.

"It gets very hot out there at times," suggested one member. "Aren't you afraid the climate might disagree with your wife?"

The man looked at him reproachfully. "It wouldn't dare," he said.

Mother wanted to spend Saturday in town, and Father, as accountant, reluctantly agreed to give up his afternoon at a league football match, and spend the afternoon with the children. On the return of Mother, she was handed the following report.

"Dried tears—9 times. And shoes—12 times. Toy balloons purchased—3 per child. Average life of a balloon—13 seconds. Cautioned children not to cross street—21 times. Children crossed street—21 times. Number of Saturdays I will do this again—0."

Neighbor—Your baby is a cute little rascal. Does he take after his father?

Mother—Well, yes and no. His father is not quite so cute, and more of a rascal.

EDMONTON CHILDREN HAVE MAGPIE MASCO

EDMONTON.—Magpie, the magpie is the mascot of Sacred Heart School here. The bird has made the school grounds its haunt for about a year, and teachers say the children have great fun with Magpie—who has a great sense of humor and can laugh and whistle.

AMBULANCE FOR ANIMALS

NEW YORK.—The American society for the prevention of cruelty to animals has exhibited its latest piece of equipment—an animal ambulance complete with short-wave two-way radio, an oxygen tent and a special stretcher with straps to hold either a panic-stricken animal or a ferocious dog.

Calgary Man Owns Historical Coach

CALGARY.—Earl Gammon has a coach parked in his garage at Banff that's more than an heirloom. Its value has been estimated at \$25,000. This is the coach that carried the Prince of Wales—later Edward VII—from Picton to Truro, N.S., in 1860. Many years later it carried Queen Elizabeth, then Princess Elizabeth, and the Duke of Edinburgh at the Calgary Stampede grounds.

At the time of King Edward's visit the coach had been put on the Picton-Truro run by an American named Hiram Hyde. Earl Gammon's father, William, bought it from Hyde for his stage-coach line from Picton to Amherst.

When the railway put the stage-coach line out of business in 1890 the elder Gammon arranged to have the old coach preserved. It was placed in a museum before it was shipped out west.

Gammon has always shown the coach in public at Banff with two horses, but it was designed for a team of four. Gammon says he has to get along with two because he can't find anyone who can properly drive a four-horse team.

Splendid Opportunity

For bright young man or girl in Regina Bank. Should have grade 11 or 12. Commercial experience not necessary. Apply in your own handwriting stating age, education, etc. Box 578, Regina.

"Skoche Good Boy."

"Little Joe" Is Big Hit

VANCOUVER.—"Little Joe," a Korean mess-boy, rates as the No. 1 boy friend of the blonde Vancouver singer Lorraine McAllister. Joe says he's 12, but probably is only about nine years of age. He had to be 12 to work for the Canadian Army in Korea as a civilian helper. That's where he met Lorraine, in the Sergeant's Mess of the Lord Strathcona Horse Regiment.

A letter from "Skoche Joe" (Little Joe) if one of the treasures among the fan mail received by the singer since she returned from a visit to Korea to entertain the troops. She recalls that Joe was pretty shy, but she took him on her knee, talked to him and gave him a snapshot of herself. She told him to come to Canada some day.

Joe beat off a few kiding sergeants to keep the picture. His letter turned up here recently. It reads like this:

"Dear Lorraine: "How are you, I am fine. I like your picture and I want to go to Canada to get education as like you. You wrote my little friend Joe on your photo 'but I think of you as my sister. Please give me letter. Don't forget my name is Joe. I shall keep your picture with me all the time OK."

You get cleaner, better grain with SEED PROTECTION

this spring, use the **Green Cross BIG 4 SEED GRAIN DRESSINGS!**

THE ENEMIES:

Smut, other seed-borne diseases, wireworms—these crop-killers cost you and other grain-growers thousands of dollars every year. This is a needless loss because they can be controlled by proper treatment of seed before it's planted.

THE ANSWER:

the Green Cross Big 4 Seed Grain Dressings—a complete seed treatment program that includes the tested and proven dressings you need to protect your crops from the pests found in your area.

1. MERLANE

the amazing new combination seed disinfectant that controls smut, other seed-borne diseases and wireworms in one operation! Costs less than \$1.10 per acre of wheat, coarse grains, and less than \$1.10 per bushel of corn and beans!

2. SAN

another great new seed disinfectant that controls smut and, other seed-borne diseases in wheat, coarse grains and flax! Application cost is less than 5¢ per bushel of wheat and coarse grains and less than 13¢ per bushel of flax!

3. BUNT-NO-MORE

the non-mercurial seed disinfectant that kills bunt (stinking smut) in wheat! Apply it for less than 4¢ per bushel!

4. 50% LINDANE

the proven seed dressing that destroys wireworms attacking cereal crops. Costs less than 30¢ per acre!

If you prefer a liquid seed dressing order Green Cross LIQUID-SAN, PMA Solution.

Locals

We wish to announce the graduation of Miss Vera Mikkelsen from the Prairie Bible Institute, Three Hills, Alberta, Canada, April 17, 1953. Miss Mikkelsen is one of the one hundred and twenty seniors who will be graduating at the institute's annual Spring Missionary Conference, April 12 to 18. She is the daughter of Mrs. L. Mikkelsen, Irma, Alberta. After graduation, Miss Mikkelsen expects to return home to spend about two months, and then she will return to the Prairie Bible Institute as a temporary staff member. She plans to make application for gospel missionary service during the year that she is on the school's staff.

Born to Mr. and Mrs. A. Dyck of Edmonton, formerly Almina Hill, on March 30, a daughter, Catherine Anne.

There will be a meeting of the Home and School Association on Monday, April 20 in the lunchroom of the Irma School at 8 p.m.

A Canada party and dance will be held at the Alma Mater school on Wednesday, April 15, sponsored by the FUA. Time, 8 p.m. sharp.

The Easter meeting of the Irma WMS will be held at the home of Mrs. R. D. Allen on Wednesday, April 15 at 8 p.m.

Mr. and Mrs. E. W. Carter, Mrs. B. H. Chesters and Mrs. J. Fenton were among the former Irma folk who attended the Easter Sunday service at the Irma United Church.

Born to Mr. and Mrs. Louis Orzechski on March 28 in Edmonton, a son.

Mr. and Mrs. C. S. Smallwood and family have taken up residence on their new farm north east of town.

Mr. V. Torrance is convalescing nicely following an appendectomy in the Wainwright hospital last week.

Mr. Murray has been hospitalized with flu for the past two weeks. Mr. L. A. Johnson was also in hospital but is now able to be home once more.

Patricia Diane Kirkman was Christened in the Anglican church in Loughed on Easter Sunday as was her small cousin Brett Kirkman.

We believe Mrs. J. C. McLean holds something of a record this Easter. She attended church at Irma, Hardisty and Loughed during the Easter week-end.

The Senior W.A. is holding an Easter Tea in Hedley's Hall on Saturday, April 11. There will also be a sale of aprons and the Junior W.A. will have a table of children's summer clothing on sale.

Mrs. C. P. Jones returned to her home on Tuesday after spending a week in Wainwright hospital.

Eric Dallow arrived from Edmonton to spend Easter here with his parents, Mr. and Mrs. Ted Dallow.

Miss Josephine Saville returned to Edmonton on Easter Monday with her aunt and uncle Mr. and Mrs. C. Saville of Hardisty after spending the Easter week-end with her mother Mrs. S. Pavey.

Francis and Lorna Saville are holidaying at Irma with their grandmother Mrs. J. C. McLean.

Mr. A. C. Archibald went to Wainwright this week to have the east he has been wearing for the last 4 months removed. It is hoped that his condition will be found sufficiently improved to make another cast unnecessary.

June Frickelton, Shirley and Walter Ender spent the Easter week-end at their homes here.

Mrs. M. McLeod is expected back at Irma shortly after spending the winter months at the coast. Her daughter Mrs. W. N. Frickelton has gone to B.C. to travel home with her.

The regular meeting of the Irma YPU will be held in the United Church at 7:45 p.m. Sunday, April 12. During the evening a ceremony for installation of Members will be held. The attendance of all young people in the district is requested.

The method of finance is: 1. Acquaint our people with our need. 2. Pray.

A want adv. in this paper does big work at small cost.

Municipal District of Flagstaff No. 62

Notice

Under the authority of the Forest and Prairie Fire Prevention Act, 1941, a burning permit must be obtained at the Municipal Office before any brush or stubble is allowed to be burned between the 1st day of April and the 1st day of December.

Persons burning without a permit are liable to a fine of not less than \$25.00 and not more than \$100.00.

JAS. L. SMITH, Sec.-Treasurer,

M. D. of Flagstaff No. 62, Sedgewick, Alberta.

3-10c

Public Notice

A Ban has been placed on all roads in the Municipal District of Wainwright No. 61 for Truck, Tractor and Trailer traffic as and from 7:00 a.m. Monday 30th March 1953, and will remain in effect until further advised. No permits will be considered.

CHAS. WILBRAHAM, Sec.-Treas., 3tfc Municipal District of Wainwright No. 61

The Canadian Lutheran Bible Institute is Growing

The Canadian Lutheran Bible Institute is an interdenominational faith venture and is located in Camrose, Alberta. Under God it has served in sending out trained lay workers to serve in the local congregations, and also directed lives into full-time service for the Lord.

The school is now inaugurating an expansion program. This is twofold:

1. To build a Boys' Dormitory with Auditorium.

2. To call a full-time Evangelist-Teacher.

The school has grown to the extent that the present facilities are not adequate and more teaching help is needed. The need for both the Dormitory-Auditorium and the full time teacher is unquestioned.

The Board of Trustees and the CLBI Association unanimously decided to launch out on this expansion program. The cost of the new building proposed may be about \$70,000.00. This step of faith was taken when there was only about \$3,000 in the Building Fund. As much voluntary labor as possible will be used, it is the conviction of the Board and Association, including the faculty that we should carry out the mandate to start to build as soon as "the frost is out of the ground." Pastor Allan Hansen of Lynwood, California, has been called as a full-time Evangelist-Teacher.

The method of finance is: 1. Acquaint our people with our need. 2. Pray.

Our people will be informed of our plans, but there will be no canvassing by the school. We commend our expansion program to your prayers and interest. God has blessed the ministry of CLBI. Souls have been saved. God's children strengthened, and the lives of many
